CARRIER OBJECTIVES

I'm excited to start my journey as a front-end developer/Web Developer, turning ideas into clean and user-friendly websites. I'm eager to learn from real-world challenges and contribute positively to a creative, collaborative team as I grow in this field. I'm always motivated to learn, improve, and build something better than yesterday.

PROFESSIONAL EXPERIENCE

The Entrepreneurship Network   08/2025 – 11/2025
React JS Developer Intern

Key Responsibilities & Work I Did:

- Worked as a React.js Developer Intern in a team environment.
- Built a major team project called "WanderLust", inspired by Airbnb.
- Assisted in improving UI design and fixing issues
- Built modular and reusable React components using JSX, Hooks
- Learned teamwork and communication while working with the team

SKILLS

Frontend — HTML │ CSS │ JavaScript │ TailWind CSS │ BootStrap │ React Js │ GSAP │ Framer Motion │ Responsive Design

Backend — Node js │ Express js │ MySQL

Devloper Tools — VS Code │ GitHub │ Git │ Crome DevTools

Exploring — Next js │ Three js │ Typescript

PROJECTS

Personal PortFolio 🔗
- Built a modern, Single-Page personal portfolio featuring an introduction, skills, project showcase.
- Implemented smooth animations using Framer Motion and designed a clean, user-focused layout.
- The website works across all devices and was deployed using Vercel for fast and reliable hosting.
- *Tech Stack*:React JS, Framer Motion ,Tailwind CSS

EclatEssence Premium Perfume Website 🔗
- Developed a dynamic and visually engaging perfume website showcasing multiple fragrance collections.
- Implemented smooth animations using GSAP to enhance the user experience.
- Included a simple authentication feature to ensure users must log in before accessing product sections.
- *Tech Stack*: HTML , CSS JavaScript , GSAP ,LocalStorage.

Wanderlust Airbnb Clone 🔗
- Worked as part of a development team during my internship to build Wanderlust, an Airbnb-style accommodation listing platform.
- I contributed mainly to developing the booking pages, ensuring a smooth and user- friendly.
- Collaborated with the team to maintain consistent UI, improve responsiveness.
- *Tech Stack*: React JS, Tailwind CSS , GitHub.
